AD CALENDAS GRAECAS / HOMOCONSUMENS EP__ 3,80 „Two czech hardcore punk bands, coming up of northern Moravia!!! Both exists many years, and have played many gigs, have out some great records and i'm sure they can't make you disappointed with this material if you are into hc/punk. Ad Calendas Graecas (check out their LP on Ultima Ratio label!) are the classic, faster, high-energic hardcore punk with very angry expression and some expriments. 3 songs by them. Homoconsumens are 100% ripping of old 80's Italian scene (and they are not the greenhorns on INL label). Fast & angry hardcore/thrash, take the best of Wretched, Mob 47, B.G.K. and you'll get it. 8 songs which can't let you fall into sleep. Blistering, hyper-speedy and raw as hell mayhem.” Malarie cz

AGE OF WOE s/t EP__ 4,30 Age of Woe is the result of a summoning of people from bands such as End of All, Massmord, Future Ruins, Fredag den 13:e, Terrorstat, No Hawaii, The Deadists and The Process to name a few. It all started when Anders and Sonny started to talk about forming a new band in Göteborg during the summer of 2010. Fueled by the desire to explore new territories in the vast landscapes of punk and metal, the search for congenial spirits begun. Martin, Gonzo and Markus were soon found and so the journey could proceed. At the end of 2010 and throughout the beginning of 2011 a few pre-productions were recorded. The songs were worked on some more to reach perfection, so the decision were made to enter the Belly of the Whale Studio in Göteborg to record the songs for the debut release. Halvfabrikat se

AMANDA WOODWARD "Meurt La Soif" EP__ 4,60 This is the latest Amanda Woodward release. A brand new 2 song 7" primarily released for their tour to Russia in April/May. The A side is Amanda Woodward at their finest playing their brand of driving French hardcore. The B side is moodier piece that explores a slightly new realm for Amanda Woodward. A powerful song that absolutely kicks ass. This record is all the first recording with their new drummer. It also features awesome artwork by Keith Rosson. 2nd Press 500 copies, Colored Vinyl ! AMDI PETERSEN'S ARME „Blod ser mere virkligt ud da film” EP__ 4,10 From Copenhagen Denmark comes Amdi Petersen's Arme. Named after an elusive Danish cult leader (the Jim Jones of Denmark?) this raw hardcore punk band took DIY hardcore circles by storm with their first 7" on Kick and Punch Records. APA play trashy aggressive hardcore in the early 80's US style. The first 7" sounded very much like early Dischord singles such as Youth Brigade, SOA and Teen Idles. This second 7" continues in the same vein but has a bit more of a Nervous Breakdown/Jealous Again era Black Flag feel or perhaps like missing sessions from Boston Not LA. Not only is this 7" raw and intense like sticking your hand in an industrial meat grinder, the songs are so catchy that you will be humming them to yourself for days after the first time you hear them. Amdi Petersen's Arme toured the USA in the summer of 2002. Then broke up. Members also played in Young Wasteners and Uro. Ex members of APA are now in Gorilla Angreb and No Hope for the Kids. Havoc dk

AMYGDAL EP__ 3,80 (new school emo hc) de

ANCHOR "Relations of Violence" EP__ 3,30 4 brand new songs of one of the most hard-working current bands in Europe. This Vegan Straight Edge HC band from Sweden already has done several European tours and recently a North American tour. This new 7" is following their "The Quiet Dance" full length on Refuse and Catalyst. It's a pleasure to work with them again for an exclusive release on Refuse Records and it really might be their best stuff they've done so far. "Relations of Violence" brings a darker, but also more intense approach to what the band has done before. There's still a strong 90's hardcore influence in there, but we can definitely also hear some influences from the best cuts of Swedish hardcore punk history. It's all served up in original and unique way, sounding like a perfect combination with a powerful impact where message and content is still important - "2009, still fighting to speak our minds, staying afloat when masses are kept down". ANY LAST WORDS EP__ 4,10 St. Paul Minnesota the other half of the Twin Cities Hardcore scene has a long tradition of raw fast Hardcore from the days of Willful Neglect and Blind Approach. From those same St. Paul streets comes Any Last Words. High energy fast Hardcore which brings to mind recent bands like Lifes Halt and No Justice and the faster late 80's SE bands like early Youth of Today or No For an Answer. Any Last Words have a cult following in the upper midwest but are practically unknown beyond this region. This 7" should open up the eyes of thrash fans world wide to their awesome power. The songs on this 7" are the best from their demo and some new tracks all recorded by Tim Mac and produced with his trademark crunch. (Mac recorded Damage Deposit and Holding On as well) Critical Colin who did double duty in Damage Deposit provides some great artwork on the front and back cover. Lyrically Any Last Words are a sincere and thoughtful band with current political commentary while still being incredibly pissed off at everything. ALW takes on GW Bush and his war, emo, work, fashioncore and society and still finds time to contribute the uproarious song "I wish I could skate". Critical Twin Cities Hardcore! Havoc us

ASSEMBLY OF GOD „Submission obedience denial” EP__ 4,10 ASSEMBLY OF GOD
SUBMISSION OBEDIENCE DENIAL

HC7026 (2001)

More info about this item

Assembly of God was a hardcore punk band from Oklahoma (none of the members lived in the same city, they all met in Oklahoma city to practice). Chad from Brother Inferior sang and played guitar, with the Drummer of Burnpile and the Bassist of Subsanity. Burnpile being a fast SEHC band, Subsanity a grind band and Brother Inferior a punk/hc band you can see that there are several different musical influences coming together on this release. That said, I would liken the sound mostly to the last Brother Inferior material, which was much faster and more aggressive than the earlier more anthemic stuff. Assembly of God recorded this 7" and some comp tracks and sadly, broke up. They only played a few out of town shows, one of which was Thrash Fest 2. Chad went on to form the Levelling which took things into an even faster realm. As with all of Chad's projects you can see that much thought was put into the lyrics. Chad has always approached issues from a very punk working man's perspective. His no nonsense point of view makes for lyrics that hit the nail on the head every time. Havoc us

AT HALF-MAST / TO THE EMBERS EP__ 4,10 Blue vinyl. „South Carolina quintet At Half-Mast bring one track of melodic, passionate hardcore to their side of this split, bringing to mind bands like Verse and Have Heart while Milan, Italy's To The Embers combine heavier sounds with similar melodic hardcore influences.” Goodwill us / it

AT HALF-MAST / VALUES INTACT EP__ 4,10 Orange vinyl. „This 7“ is part of a 4 piece 7“-collection which tells a story through the cover artworks. The story is told by drawings of 4 different artists from all over the world. Values Intact is the first band on this split. Unfortunately they've already broken up, but nevertheless their music is still available and still worth listening to. A very fresh Youth Crew flavoured voice comes together with Oldschool influenced energetic Hardcore. A bit faster than their friends in At Half-Mast. Three really fresh songs. At Half-Mast, as I just mentioned a little bit slower than the first band on this nice split 7”, come along with a more Modern Hardcore influenced song.” Goodwill Us / it

BATTLEORN „Burn Fast” EP__ 3,80 Battleorn erupted onto the NYC music scene with a bash 'n crash hardcore sound and a take-no-prisoners attitude. Although they started as a guitar/ drums/ vocals 3 piece, and recently slimmed down to a two piece attack, they make the most of their minimalist line-up with a full on wall of noise sound. They've got a classic, ragged hardcore sound. Battleorn will bring their one-two punch of a live show anywhere-- hardcore shows, metal shows, rock shows, and even hipster-indie shows, leaving many an audience member with dropped jaws at the near riotous response they often get. This 7" follows up a recent LP on Troubleman Records. Mad At The World us

CANCER SPREADING / CRUEL STORM EP__ 3,80 „Cancer Spreading, are from Modena, Italy. Now they added a guitar player so they're 5. As you can guess by their name, they love Deviated Instinct. So do I, can't blame them for this eheh. On this piece of wax they deliver 2 tracks of filthy stenchcore. Fast parts alternated to mid tempos followed by metalish harsh distorted guitars and sung with raw growls. This stuff reminds me of old UK stuff in the vein of the first crust bands, so a lot of punkish flith mixed to metalish thrashing with an 80s style. One song is about religion, while the other one is an attack to the so called "progress". Great recording if you ask me, definitely worth checking out. On the other side there's Cruel Storm. They are a 4 piece d-beat band from Cesena, Italy. I had never heard them so this was the first time they reached my ears. Fast hammering drums that reminds me of some Scandinavian touches and some Masskontroll-ish riffs, and a desperate vocalist and with a punkish edge that reminds me of some Anti-Cimex. They too have 2 tracks, both have political lyrics. One is against war and the other is a refusal of this society. I actually like this stuff more than I thought. I'm not a big d-beat fan, but this band mixes a lot of things I like, so "Fuck Yeah", I say." diy it

CROW "Flock Of Beast" EP__ 4,90 Clear vinyl re-press limited to 500. Tokyo legends Crow deliver two

blasting tracks of doomy, metallic punk mayhem - "Flock Of Beast" and "Flock Of Beast 2." Thundering deeper into epic, mid-tempo territory on the A-side with Crow's trademark boisterous vocals over searing riffs, this EP echoes their recent "The Beating Of The Wings Of Destruction" 12" by exploding on the B-side into ferocious, fast paced hardcore.

Crow's origins date back to the early Japanese punk scene of the 1980s, but they have attacked in the last decade with a renewed intensity,

culminating this decade in three US tours and a second album "Bloody Tear" which was released in the U.S. by Prank in 2007. Prank jp
CROW "Neurotic Organization" EP__ 4,30 Dark and bleak hardcore cornered in metallic rock, but thundering with determined intent. Fueled by the upbeat energy of Japanese hardcore, but drawing longer mid tempo compositions of shouted despair, pounded drum beats and screaming guitars influenced by UK bands such as Antisect and Amebix, the EP includes a rollicking cover of Amebix's "No Sanctuary." Crow has been on and off the hardcore scene for almost two decades, with numerous releases in Japan. This was their first US release in 2001, recorded in Oakland at Polymorph Studios and has been out of print for over six years, with cover art and design by Carl Auge of His Hero Is Gone and Drain the Sky. The cover has been re-worked for this re-release and the EP issued on limited to 400 red vinyl. Prank jp

DOOM "Police bastard" EP__ 4,10 A crust punk classic back again one last time for their 2011 US tour. These are pressed on on totally random colored marbled wax and no two records are exactly the same. Five songs recorded in 1989, during the same session in which they recorded their brilliant split LP with NO SECURITY. Considered by many to be their best early material, this classic EP contains the songs "Means to an End," "Relief, Pt. 2," and of course, "Police Bastard." This was the second release ever by Profane Existence Records and is considered a masterpiece of "crust." There are at least five different versions of the cover, but all of the Profane Existence vinyl were made using plates copied from the original masters. Profane Existence uk

DOWN TO AGONY „Requiem por un mundo enfermo" EP__ 3,80 The brand new 4 songs 7" from the Spanish powerful & crushing Neo- Crust hardcore-punk band who recorded after the first LP "No-Vida". This band is a sound that mixed His Hero Is Gone, Tragedy and Fear Is The Path To The Darkside but they've their own "darkness". And, the vocalist who does scream in tragic voice expresses misery and death of ourselves invented by this sick world. But in their words, there's a conviction to the reality of our own desires to the last. That is, this one is a just "Requiem por un mundo enfermo (Requiem for a sick world)" as told by the record's title. We (A)cclaim Collective didn't know this band at all until there's contact from them. But we felt that our and their standpoint and purpose were the same, so we

decided to participate in this co-release. because they have said like this: "we still live, we still burn, we still love". Great artwork. Sadness Of Noise es

 EASPA MEASA / NEMETONA EP__ 3,80 EASPA MEASA from Dublin, Ireland are super female / male vocaled
 political hardcore 5 piece, and they play amazing crusty melodic hardcore fury. If their sounds are described, it is a sound like Disaffect meets Submission Hold based on Tragedy! (but this is a comparison not significant at all. It will be understood if you touch this band). The 2 songs of this split 7" is re-recording of "Dead Inside" & "Maggots and Worms" from their "Renounce & Dethrone" demo, and these are faster and louder than the demo. their unrelenting lyrics are in English and speak about the police that increase control, our struggle in this world based on greed, violence and power. With Japanese translations of their lyrics of course. An excellent artwork by Glyn of THE DAGDA. By the way, this band's name is traditional Irish language (not spoken by many people any more in Ireland), it is translates as "Lack Of Respect" in English, and pronounced "Ah-spa Mah-sa". NEMETONA is a Japanese female fronted raging crustcore attack. Female vocalist named the "Ascum"-- her insane powerful shout is a charm of this band. Their 3 songs are first recording after the bassist joins, and it becomes a new line up. Moreover, it is a first real recording as for the band. When I

saw this band for the first time in "Crust Night 2004" that "Tribal War Asia" organized, and I decided to do release of them in the mind.

Their show was awesome. I'm very excited because I achieved the release of this 7" that becomes release of Acclaim's first Japanese band also. Acclaim ie / jp

It has the aggression and power mixed with musical prowess that brings the music above the common. A controlled wall of blasting sound that brings forth a good slap in the face. It also takes you along dragging you on the ground for additional pain. The sound is so big that you feel enveloped in the energy. Halvfabrikat se

figure out what Matt's ranting about and it runs the gamut from environmentalism on
"Garbage Existence" and "Swirling Vortex" to "jock edge violence," as he puts it on "I
Sharted My Pantaloons." Semi-raw production brings out the thrashy intensity to blast a
hole in your skull, euphemistically speaking. For a non-euphemistic flavor, just put it on,
crank it and prepare to bowled over by the savagery." (Suburban Voice) Vinyl Addict us

ICE NINE "Nobody's Son" EP__ 4,90 ICE NINE from Indianapolis, Indiana represented everything that was great about resurgent extreme hardcore of the 1990's- a experimental willingness to throw anything against the wall to make it's point, incorporating the straight forward attack of 80's hardcore but pulverizing formula through burly Low end down beat, intensely Frenetic drumming, swirling guitar leads and the fragmentary Midwest stop and start twists. A Uniquely original band like their contemporaries HIS HERO IS GONE, IN/HUMANITY, END OF THE CENTURY PARTY and with a sound way

ahead of the same stop-melody-start-grind that became popular in the late nineties/early 00's by half a decade, Prank was originally slated to release an LP by ICE NINE in 1996, but the band broke up before it was recorded. Band members went on to play in TIME IN MALTA, BURN IT DOWN, MAHJAS, THE PROBLEMATIC, YOU WILL DIE and THE DREAM IS DEAD. A successful CD collection of ICE NINE's material from the Bovine, Ebullition, Rhetoric labels was released on Happy Couples Never Last in

2004 and in 2009, the band reunited with all original members to play Indianapolis's DUDEFEST. The response was so phenomenal ICE NINE wrote three new tracks that pick up right where they left off. Mastered by George Horn with a cover by Bob Pelee. Prank us

M.D.C. (MDC) / JOHN THE BAKER EP__ 4,30 John the Baker is the guy arrested in
Woodstock NY 1994 for the lyrical content of his songs. He proved the case against him
unconstitutional in court and sued the town of Woodstock and their police dept. for 1
million dollars. The Baker then settled out of court for \$20,000, and shut down the bakery,
made a record and went on tour. This side of the split 7" with MDC Unplugged tells the
story with a detailed description in the liner notes and with the songs. Ladder of Pigs is the
song John was arrested for and Cops is the song he wrote after his arrest which tells the
story of how the Woodstock police were having sex with underage girls. John the Baker
with the assistance of a few town board members got a secret investigation against the
Woodstock PD and got half the police force fired for sexual misconduct. MDC play "Lets
Kill All the Cops" and "It Can Happen" in support of the actions that John The Baker took
over the police in this situation. Tankcrimes us

A ripping onslaught with double bass drumming, dual guitars, and ferocious vocals. Song titles such as "Bloodlust", "Body Of Christ", and "Truth Of War" should give you a good indication of where they are coming from lyrically and stylistically. Comprised of various vagrants and vagabonds from the Boston punk scene, Mishap's debut EP isn't a cheap imitation or second rate knock off of

the bands that influenced them, but rather pick up right where the UK greats left off while adding their own ripping trademarks to the genre. Social Napalm us

They've stepped up their song writing to capture a much more pulverizing sound. Lots of technical guitar and bass shredding over bulldozing drums with maniacal vocals. Add to that a really interesting interpretation of a Swedish hiphop-artists song ("Av hela mitt hjärta" - best track on the record), an absolutely fantastic mastering of the record by Mattias, and you have one hell of a

record that outdoes most of the so far released punk records of this year. It's catchy, has a monstrous sound that hard to

come by, and of course some snazzy sing-a-long choruses making for a rally impact that's hard to deny. Even the lyrics are

well thought through and brings out the essence of the band in a magnificent way.

PROTESTANT „Antagonist" EP__ 4,30 The main path here is dark and powerful hardcore with hard rhythms and thundering beats, but Protestant are a lot more hardcore than that with their speed and aggressiveness, and the music takes more than one turn with the occasional doom-laden riffs lurking around one corner and blastbeats around another. The guitar work on here also brings forth thoughts of black metal from time to time with their evil sounding harmonies. There's more to this band than the average "dark and heavy hardcore band" and there's another level of depth that many others lack. Spitting vocals, ravelling riffs, and an alternation and combination of the crushing rhythms and rapid deliverances makes the word powerful seem like an understatement with it comes to the three tracks on this EP. This reconstituted line-up includes three original members plus Lyz and Ryan from WARTORN and still play the classic 90's variety of multi-vocal fronted crust this band was known for. REPULSIONE / ISOLAMENTO EP__ 3,80 Repulsione plays fast and raw powerviolence. Double-bass, high-power distortion attack with blasting drums. Grindcore 90s style meets

thrashcore. "Antihuman Powerviolence" contains 5 tracks of thrashin' grindcore powerviolence with socio-political lyrics expressing hatred toward mankind and society. Some influences include: Rot, Agathocles, Yacopsae, Unholy Grave, Cryptic Slaughter, & D.R.I. Isolamento is a thrash hardcore band proudly hailing from Casalecchio. Their sound is influenced by 80s American hardcore like Black Flag, Circle Jerks, D.R.I., Minor Threat, & Bad Brains as well as old school Italian hardcore bands like Negazione and Indigesti. Packed with political and anti-fascist lyrics. 3 fast thrash tracks to start the moshpit!

RIGHT IDEA "Right Idea" EP__ 3,30 Cleveland Straight Edge! Many of you have already heard this band on their great debut "Our World" 12" on React! Records (repressed now as a 7" on Bottled Up Records in the States). This new Right Idea 7" on Refuse Records contains five remastered songs that originally appeared on their demo. Some of the members of the band have been a part of several sXe oriented bands during the last couple of years including COMMITTED and also NAMES FOR GRAVES - who did a 7" for Refuse Records in 2005. We're excited to work with these guys again and their 7" is a great release that we have to offer to the world. This band has a lot of spirit and brings new meaning to the old school style

positive approach. They also bring fast, sharp, direct, hard-hitting, and to the point songs in the vein of Straight Ahead or No For An Answer. Refuse us

S.B.V. "Swallow the Pill" EP__ 3,30 The long time anticipated brand new 7" of S.B.V., out of San Diego, California. For all those who never heard this great band - imagine a modern day version of Unity, Uniform Choice, 7 Seconds, or Dag Nasty played with so much heart and a positive vibe. Definitely extra points for their meaningful, thoughtful lyrics claiming "Music as a weapon - not just entertainment" (a line from an older song of theirs, but the attitude applies to their entire output); social, personal or scene-related issues well-written in an interesting and often humorous way. SBV started in 2002 and so far they have released a full length LP on Mankind Records and a couple of 7 inchers. The new 7" contains 6 songs. S.B.V. stands for SILENT BUT VIOLENT, and we can assure you that you should expect the opposite from this rad band! Refuse us

They pack a socially relevant punch that will make you question the world around you as well as the face reflected in your mirror. Philosophical lyrics filtered through the human element are backed by dead stop breakdowns and a neck snapping rhythm that will move you if you have a pulse. SEE YOU IN HELL / CONTRAST ATTITUDE split EP__ 3,80

CONTRAST ATTITUDE from Japan delivers the punch straight to the point with two blasts of loud apocalyptic d-beat raw punk. The legacy of British metal punx of late 80s like BROKEN BONES and (later period) DISCHARGE, Scandinavian käng of SHITLICKERS or ANTI-CIMEX and Japanese distorted wall of noise of bands like DISCLOSE and CONFUSE is definitely right here in the music of these maniacs from Mie-city active already since 1998! After split EPs with CROW and SYSTEMATIC DEATH is this split already the third split EP of SEE YOU IN HELL from Brno-city/Czech Republic with Japanese band. Two songs of energetic and ass-kicking hardcore/punk with gravely vocals and gang choruses. STATE „No illusions" EP__ 4,10 one of the rawest and most powerful hardcore bands of
the early 80's. Sadly overlooked, the State has had a cult following among collectors and
hardcore maniacs in the midwest since the glory days of the early 80s. After a dodgy
European bootleg of this 7" the band, Havoc and Grand Theft Audio have teamed up to
give this lost classic a proper re issue. Recorded in 1983 by the State with production
assistance from Ron Asheton of the Stooges, this is totally icindierly raw, pissed off early
80's hardcore punk. The anger and raw energy on this disk capture the frustration and
angst of growing up punk in Reagan's America. Musically it's a raw hardcore assault on
the lines of Discharge, Negative Approach, Necros or the Fix. Havoc us

Both bands have been around since the mid-'90s with Strohsäcke's first release being in 1994 and The Worhät's making their debut in 1996. SVART FRAMTID "1984" EP__ 3,80 The life (and modern communication technologies) have their own ways sometimes... So it happened that Voltage have the pleasure to release the first ever official re-issue of the one and only EP by Norwegian SVART FRAMTID that has since its first release 27 years ago become an impossible-to-get collector item. SVART FRAMTID ("Black Future") have until now remained an icon of Norwegian hardcore/punk of the 80's. Six explosive tracks of angry mid-paced punk with witty ideas, raw & wild vocals (so typical of the Scandinavian bands of that time!) yet still full of unobtrusively catchy and raging melodies that partially also constituted a trademark of the style of the SF members' later bands: KAFKA PROCESS, SO MUCH HATE etc. Not even the lyrics let you rest: the vocalist spits fire in his native tongue and the topics create a rough picture of the space-time of their origin: cold war and daily threat of nuclear conflict, billions wasted on armament, omnipresent influence of religion, shitty factory jobs and the future remains black. EP comes in its original layout with elaborate poster-sleeve full of cut'n'paste graphics and apocalyptic drawings that only strengthen the feeling of desperation. This record represents the 1980's in all their filth yet it is still incredibly up to date! Maybe even way too much... Voltage no

On the other hand, LA VIRGEN DEL POZO is closer to grindcore, with white-hot guitar over a backdrop of throat-destroying vocals; it's intricate, but extremely effective, and highlighted by the amazing "Mi realidad es una pesadilla..." WEEKEND WARRIOR "Se Repite" EP__ 3,80 Brand new ep by Long Beach CA's long running hardcore punk anarcho thrashers WEEKEND WARRIOR. Lyrics/vocals in both English and Spanish examining the foolishness of HOPE in the face of increased exploitation of the working class as those in power cling to the tired doctrine of free trade capitalism as it sinks falls to the ground. Musically comparable to LOS CRUDOS and CHARLES BRONSON, but at once more bleak and memorable than WW's previous output. Mass Media us

WEEKEND WARRIOR / HEIL HIDIOT EP__ 3,80 This is a total hardcore punk rager featuring Los Angeles' WEEKEND WARRIOR and Italy's HEIL HIDIOT. WW bring the frustrations of the wage slave screaming his head off to the tune of mega distorted hardcore punk rock. Fans of GUYANA PUNCH LINE, 9 SHOCKS TERROR, and CHARLES BRONSON should enjoy their side. HH are a sarcastic group of sarcastic hardcore punks both informed by classic Italian hardcore like RAW POWER and US powerhouses like SS DECONTROL and FUs. Great female vocals critique the scene, creepy dudes, and the shittiness of life itself. Mass Media us/it

WORLD BURNS TO DEATH / SLANG EP__ 4,90 Limited red vinyl copies for stores and distro only are limited to 650. Marking the 2010 summer U.S. tour of Austin, Texas's WORLD BURNS TO DEATH and Sapporo,

Japan's veteran hardcore band SLANG, this EP combines two guitar driven blasts of

hardcore fury. SLANG have existed for over twenty years evolving between classic Japanese fast hardcore and downbeat NYHC influences, their track "Our Grey Earth" rampages on SLANG's own path,

incorporating the evolution of influences into a fast assault of hardcore that winds to a devastating guitar driven breakdown. WORLD BURNS TO DEATH similarly continue to evolve from caustic bursts of

corrosive thrashing to a tempered attack stitched by a melodic guitar riff and glued solid with torrential drum bashing, volatile guitar blasts and harsh vocals, ensuring their track "Babylon Endures" continues their trademark sheer intensity. Prank Us / jp

The music is fast, short, intense and direct, well in the vein of this very important musical current of the beginning of the Eighty and which rises directly from the English punkrock" Side fr
